Management Discussion and Analysis

September 30, 2003

Description of Business

FM Resources Corp. is a Vancouver based junior natural resource company focused on mineral exploration. The Company's principal assets are its La Forma, Antoniuk, and Ant gold properties located in the Dawson Range of west-central Yukon. The Company is a Tier 2 issuer listed on the TSX Venture Exchange under the symbol FMR.

Discussion of Operations and Financial Condition

The Company's Yukon properties are located in central Yukon 66 km west of Carmacks and 220 km northwest of Whitehorse and comprise contiguous quartz mining leases and quartz mineral claims encompassing roughly 1,130 hectares (2,785 acres) that are owned by FM Resources Corp. During the quarter ending September 30, 2003 the Company carried out a soil geochemical survey on its Ant property. With the onset of winter the Company does not anticipate undertaking any additional exploration work on its properties in 2003.

Management reviews exploration and development opportunities on an ongoing basis.

Current liabilities at the end of the period comprising accounts payable and accrued liabilities totaled \$989,796 compared with \$800,713 for the same period the year prior. Loans payable at the end of the third quarter were \$1,021,524 compared with \$996,524 the previous year.

Liquidity and Solvency

At September 30, 2003 the Company had \$7,377 in current assets. The continued operations of the Company and the ability of the Company to realize its assets and to discharge its liabilities in the normal course of business are dependent upon the continued financial support of its creditors.

Investor Relations

The Company maintains a web site, www.fm-resources.bc.ca The Company does not have any contracts or arrangements with third parties for investor relations.
